Then I guess we should close the ER TO once the funding is used up.

Theoretically yes but the way we do things is really not exercising their warrant because we already have an ER TO so we just issue a subtask and that I have to do.

When an OSC exercises their DPA, shouldn't they be submitting the TO Form and IGCE directly to the CO? Aren't there time constraints for submitting them?

Subject: RE: Use of delegated procurement authority

Bret,

Please send me the TO subtask form and IGPE for this. Thanks.

Subject: Use of delegated procurement authority

Amit:

I am calling EQM and exercising my delegated procurement authority to pay for 6" float actuated pump rental for four pumps on the Spirit of Sacramento vessel which is currently in Sausalito at the Army Corps of Engineers dock. These pumps were installed yesterday and I mistakenly understood that USCG was paying for the rental on these pumps. Per agreement with USCG, and because the duration of the EPA Hazmat removal from the vessel is unknown, I have determined that the pump rental to assure the stability of the vessel is an appropriate EPA cost. The rental cost for the 4 pumps is [REDACTED]. I anticipate paying this cost through my delegated procurement authority for 2 weeks, after which this ongoing cost will be covered by the time critical removal action which will be implemented by Chris Reiner. Please call me on my cell phone if you have any questions.

Thank you,
Bret
